

Amir Asadli

Front-End developer

I'm a passionate Front-End Developer and creative technologist with a strong foundation in modern web technologies and UI/UX design. Alongside my front-end expertise, I'm actively expanding into back-end development and database management to become a well-rounded full-stack developer. With hands-on experience from tech internships to game development camps, I build intuitive, responsive digital experiences — always learning, always creating.

PERSONAL PROJECTS

GameSatis - online game store (01/2025 - 04/2025)

- Developed a dynamic and user-friendly game store platform where users can browse, purchase, and review video games. Furthermore, user can register as a seller and sell their own games in the platform. The platform supports real-time data interactions and a responsive, mobile-first UI.
- Website link: <https://gamesatis.netlify.app/>

HealingHands – AI-Powered Health Assistance Platform (04/2025 - Present)

- Building an intelligent and user-friendly health platform where users can identify possible illnesses based on symptoms, connect with certified doctors, and find affordable medications nearby. The platform supports real-time data interactions, responsive design, and includes features like AI symptom analysis, doctor Q&A forums, and ambulance tracking for emergencies.

CERTIFICATES

Front-End Developer Certificate - Matrix (10/2024 - 04/2025)

Completed a comprehensive front-end development program covering HTML, CSS, JavaScript, TypeScript, React, Redux, and modern UI/UX principles.

3D Game Modelling Certificate - GameJam+ (10/2024 - 10/2024)

Developed skills in 3D modeling and texturing, contributing to a team-based game project during an international game development marathon.

2D Game Artist Certificate - Digiage (09/2024 - 09/2024)

Participated in intensive training focused on 2D game art, including sprite creation, digital illustration, and asset design for game development.
